CONFIRMATION

Product: Serological Pipettes,1 ml / 2 ml / 5 ml / 10 ml / 25 ml / 50 ml

Item No.: 604107, 604160, 604181, 710180, 710183, 710160, 606107, 606180, 606183, 606160, 606190, 607107, 607107N, 607160, 607160N, 607180, 607180N, 607183, 607190, 710107, 760107, 760180, 760160,768140, 768160, 768180, 760160-TRI, 768160-TRI, 604160-TRI, 710160-TRI, 607160-TRI, 607160N-TRI, 606160-TRI, 710183-TRI

Latex Statement

Our raw material supplier confirms:

Latex is not intentionally manufactured substances or compounds. However, we do not analyze for these specific substances or compounds.

Disclaimer:
The Information in this document is accurate to best of our knowledge at the date of publication. It is the responsibility of users to determine whether the product is suitable for their use and can be used safely and in compliance with all existing laws and regulations. The statement provided is exclusively for our user and respective competent authorities. It is not intended for publication either in printed or electronic form (e.g. via Internet) by others. Thus, neither partial nor full publication is allowed without our prior written permission

Please note that this confirmation expires after 12 months or in case of regulatory changes.

Statement Nitrosamine

Our raw material supplier confirms us
following substance is not used as additives or ingredients in the manufacture of the raw material:

nitrosamine

Note: We do not analyse for above mentioned substances or compounds.

Statement sterilization

GBO sterile pipette tips with a sterility assurance level of 10^{-3} (SAL 10^{-3}) are manufactured under controlled conditions.

All sterilization processes are validated in accordance with ISO 11137 "Sterilization of health care products – Radiation".
Our irradiation supplier is certified according to ISO 11137 and ISO 13485.

Based on their design, manufacturing process, and sterility level, GBO SAL10^{-3} sterile pipette tips are suitable for use in applications such as bioburden testing, microbial enumeration, and cell-based assays. These products are widely used in analytical, microbiological, and cell culture-related workflows where sterile handling is required.

Please note that the final responsibility for confirming suitability within a specific method, assay, or regulatory framework remains with the end user, including method validation under the respective laboratory conditions.

Please note that this confirmation expires after 12 months or in case of regulatory changes.

CONFIRMATION

Product: Serological Pipettes, 10 ml, sterile, single packed

Item No: 607180

Our raw material supplier confirms us:

CMR Substances
The product does not intentionally contain CMR substances (carcinogenic, mutagenic, reprotoxic), including nitrosamines.

Contaminants and Residues
The product does not contain dioxins, antibiotic residues, orgrowth hormones or steroids.

Plant-related Substances
The product does not contain pesticide residues or plant hormones or growth promoters.

Residual Solvents (ICH Q3C)
No residual solvents (Class 1, 2 or 3) are intentionally present. Relevant solvent residues are not expected due to the manufacturing process.

Allergens
The product does not containgluten, glutamate, peanuts or peanut derivatives, latex, or silicone (unless otherwise specified).

Additives
The product does notcontain preservatives, additives or melamine.

Animal-derived Substances
The product does not contain any materials of animal or human origin, including proteins, enzymes, collagen, gelatin, blood, serum, milk-derived substances, or wool derivatives.

Microbiological / Other Contaminants
The product does not contain aflatoxins, molds, or mycoplasma. The product is sterile and manufactured under controlled conditions.

Material-specific Substances
The product is latex-free, phthalate-free (or not intentionally added), and free from intentionally added silicone.
