BARCODED MICROPLATES - READY TO USE

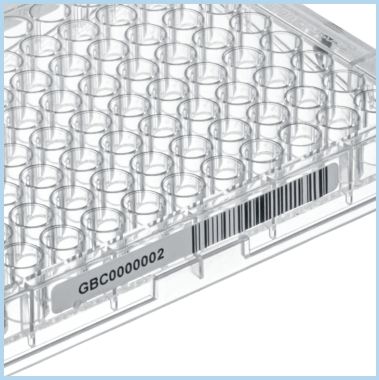

Streamline your workflow with generic barcode microplates off-the-shelf

Simplify your tracking and improve process efficiency with our generic barcode microplates, designed for seamless integration into automated systems. Each barcode consists of a plate-type-specific three-letter prefix followed by a seven-digit numeric sequence. All barcodes are unique and assigned in ascending order.

- Faster turnaround times than with custom barcodes
- Labels applied to all four sides of each microplate for maximum compatibility with automated systems
- Barcode Type 128 format ensures high compatibility with barcode scanners and software platforms
- Unique barcode sequences with no duplicates, ever - giving you full confidence in plate identification and data integrity
- Exceptional print quality and resolution for accurate, reliable scanning every time
- Human-readable text is printed beside the barcode for easy plate identification

NEED A CUSTOM BARCODE SETUP? NO PROBLEM!

Our custom barcoding service allows you to choose every detail - from barcode type and positioning to sequences - ensuring a perfect fit for your specific needs. Contact us today to discuss your custom requirements!
