## A unique combination of allergy prevention and comfort.

PRIMARY INDUSTRIES

## **IDEAL APPLICATIONS**

- Handling, assembling and controlling applications in all types of industrial environments where there is no need for mechanical protection
- Pharmaceuticals

#### **DESCRIPTION**

- The NeoTouch® gloves were the first neoprene single-use gloves for industrial usage.
- With a latex-free formulation, NeoTouch® gloves are appropriate for the prevention of Type I allergies. Because they're powder-free, they also limit the risk of dermatitis for the wearer.
- They provide excellent resistance to acids, bases and alcohols. Thanks to an exclusive formulation, NeoTouch® gloves are convincingly the most comfortable synthetic single-use gloves available today.
- NeoTouch® gloves have a polyurethane inner-coating that ensures easy donning. Their textured fingertips provide a secure grip in both dry and wet conditions. The beaded cuff ensures a secure hold, and their green colour makes them easy to identify.
- NeoTouch® gloves are inspected to an AQL of 1.5 for pinholes, which matches the legal requirements for medical gloves.

#### **REMARKS**

• 25-101: Fit for special purpose

**CATEGORY III**
