Certificate of Origin

Product name: LB Broth (Lennox)
Cat. Nº: 1231

PART I: MANUFACTURING

Country of manufacture: Spain		
Process of manufacture: Weighting, grinding, mixing and packing raw materials.		
Are processes in-place for monitoring the production process, traceability and batch consistency?	☒Yes	☐No
Is this product/material collected and/or processed in dedicated equipment?	☒Yes	☐No
Was this product/material collected and packaged in new or sterilized containers?	☒Yes	☐No
During the manufacturing process is tap water, distilled water, USP water, soak or spray used?	☒Yes	☐No

PART II: BSE/TSE RISK

Is the product partly or fully of human or animal origin (e.g. Tissue, tissue extract or fluid such as milk, blood etc.? If yes, please state a) Milk (Bovine) b) c) d)	☒Yes	☐No
Material country of origin: a) New Zeland b) c) d)		
Does the manufacturing process involve any raw materials, source materials, or reagents that are of human or animal origin (e.g. lubricants, cleaning agents, filtering agents, antifoaming agents, processing aids, enzymes or culture media)? If yes, please state a) Pancreatic Enzyme (Porcine) b) c) d)	☒Yes	☐No
Material country of origin: a)USA b) c) d)		
Does the product originate from microbiological or cell culture fermentation using media culture derived from human or animal origin? If yes, please state	☐Yes	☒No
Is the product purified using chromatography media (e.g. specific ligand columns) or buffers that contain components of human or animal origin? If yes, please state	☐Yes	☒No
Is the product, for any reason, at any time during its manufacturing process, in contact with raw materials of human or animal origin? If yes, please state	☐Yes	☒No

C/ Forja, 9. Torrejón de Ardoz T. +34 91 761 02 00
28850 Madrid, Spain www.condalab.com

Is any equipment used for processing, packaging and/ or storage of the product in contact at any time with other materials of human or animal origin (e.g. cleaning solution, test media used in equipment validation, other human or animal derived products)? If yes, please state Reactor is in contact with bovine and porcine origin products, but our manufacturing sites have implemented strict cleaning procedures as part of its HACCP plan.	☒Yes	☐No

PART III: GMO

Is the product partly or fully produced by plant or microorganism or does it come into contact with such? If yes, please state Baker's yeast	☒Yes	☐No
Have plants, animals or microorganism used in the production of this substance been genetically modified (with methods which do not naturally occur) or has genetically modified material been in contact with this substance) If yes, please state	☐Yes	☒No

PART IV: ALLERGENS

Does the product partly or fully originate or come in contact with gluten-containing cereals like wheat (including Kamut and spelt), barley, rye, oats, or triticale? If yes, please state.	☐Yes	☒No
Does the product contain or was in contact with potential allergens like nuts, peanuts, milk, egg, soya, crustaceans, mollusks, fish, celery, mustard, lupins or sesame seeds? If yes, please state Milk is used on the manufacturing process of the product. Soya is used in the same production site but our manufacturing sites have implemented strict cleaning procedures as part of its HACCP plan.	☒Yes	☐No
Could the product contain other natural products?? If yes, please state Yeast	☒Yes	☐No
Does the product contain sulphur dioxide and sulphites at concentrations of more than 10 mg/Kg or 10 mg/L expressed as SO_2? If yes, please state	☐Yes	☒No

Laboratorios Conda S.A. certifies that the requirements of Regulation EC 1069/2009, EMEA/410/01, Regulation EU 1829/2003, Regulation EU 1169/2011 are fulfilled.

The above information is believed to the best of our knowledge.
