Technical Data Sheet

Description

Flystuff® Drosophila Bottles
Polypropylene, 250 Bottles/Unit

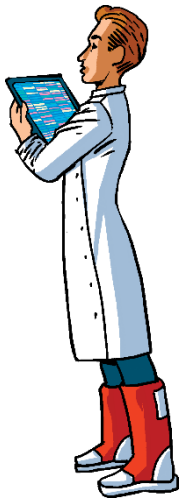

Part number

789021

Pieces by sales : 250

Description

We offer a range of high-quality 6oz and 8oz Drosophila bottles in both plastic and glass. Our polypropylene bottles are fully autoclavable and reusable. Choose from square bottom bottles for a wide sealing surface or round bottom bottles with a molded indent for media retention. For maximum durability, we also offer heavy-wall glass bottles - ideal for repeated autoclaving and long-term use. All bottles are compatible with standard closures and are designed for ease of use when flipping flies.

Our 6oz bottles also feature space-saving, eco-friendly packaging that uses 30% less cardboard than the industry standard - reducing storage demands and environmental impact. Made in the USA.

Product Overview

- 8oz round bottom Drosophila bottles are precision molded from pure, virgin medical grade polypropylene
- Polypropylene bottles are fully autoclavable and reusable
- High-quality design features thin walls for optimal visibility
- Fewer obstructions than other bottles for best visibility
- 12.5ml graduation marks assist with accurate pouring of Drosophila media
- Round bottom includes an indent for securing fly food
- Design makes bottles extremely easy to use when flipping flies
- Bottle openings are engineered to accept any standard size closure, including paper lids, foam Droso-plugs®, cotton balls, rayon balls, and Flugs®
