Technical Data Sheet

Description

Porous Plastic Sheet
.100 Thick x 12, 1 Sq. Foot/Unit

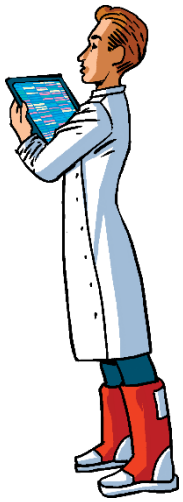

Part number

789030

Pieces by sales : 1

Description

This high quality porous polyethylene is used in our in-house machine shop to manufacture the FlyStuff Flypad. We have made this product available to the Drosophila research community so that they may make their own apparatus or resurface an existing apparatus.

Sold by the contiguous linear foot from a 12in. roll. Custom sizes can also be cut. Please call or email for details.

Product Overview

- 12 inch x 12 inch Sheet
