Technical Data Sheet

Description

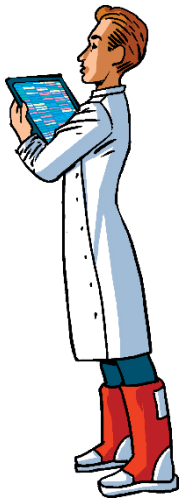

Flystuff® Narrow Fly Vial Reload Trays
Red, 12 Trays/Unit

Part number

789226

Pieces by sales : 12

Description

For narrow vials (25 x 95mm). Introducing a truly revolutionary breakthrough in Drosophila research products: the fly vial reload system. The system saves valuable time, is environmentally responsible and economically priced. This patented product has changed the face of how plastic vials are purchased and used. The reload system tray is precision plastic injection molded and features a self-contained divider/partition system. 100 plastic vials can be loaded in seconds into these unique trays. The vial stacking plates are made of RPET which have a recycling resin code of “1” and can therefore be readily incorporated into any recycling program.

Not autoclavable. If machine washed, avoid dry cycle. Fully submersible and bleachable. Made in the USA.

Product Overview

- Use with our reload vials to save time and money
- No tray partitions for easy vial racking
- Durable plastic construction
- Easy to clean
- No refuge for mites like traditional cardboard trays
- Five colors avaialble

Technical Specifications

- Color : Red
- Material : Plastic
