Technical Data Sheet

Description

Biocooler Benchtop Tube Cooler
Holds 48 cryovials, 1 Biocooler/Unit

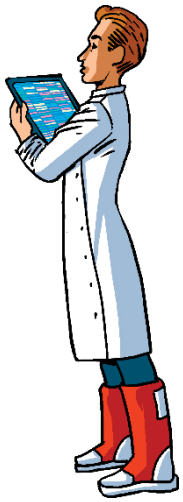

Part number

789251

Pieces by sales : 1

Description

Designed by the inventor of the original benchtop cooler, the Biocooler was developed to protect your valuable enzymes and reagents while at the lab bench and also from temperature fluctuation during storage due to frost free cycles, power loss or open freezers.

Biocooler is a unique tube storage system consisting of a gel-ice filled module permanetely mounted in a convenient carrying case. Inclues an eraseable note panel on inside cover for simple tube identification.

Product Overview

- Specifically developed to protect cells and biologicals stored in -70°C freezers
- Biocooler Cryo accommodates 48 cryotubes
- 21.5cm Wide x 9.5cm High x 20cm Deep
