Pieces by sales : 1

Description

Genesee's premium-grade platinum wire is a dense, malleable precious heavy metal that exhibits remarkable resistance to corrosion, even at high temperatures. All bulk platinum wire is supplied carefully wound to an oversized spool for easy access and wire cutting. This wire is ideal for making homemade worm picks.

99.95% pure platinum wire is exceptionally pure and malleable for easier flattening and a softer pick tip compared to platinum/iridium alloy. Gauge refers to diameter, a higher gauge being a thinner wire and vice versa.

Product Overview

- 99.95% pure platinum
- 32 gauge (0.008in. / 0.203mm diameter)
- Premium-grade platinum wire
- Carefully wound to oversized spool
- Exceptionally pure and malleable for easy flattening
- Try the WormStuff worm pick for a user-friendly, cost efficient alternative

Technical Specifications

- Material : 99.95% Platinum
- Gauge : 32
