

Axygen® AxyPrep™ MAG Plant Genomic DNA Extraction Kit

High-quality Plant Genomic DNA

Extracting high-quality genomic DNA (gDNA) from plants has become vital, especially with the widespread use of genetically modified organisms in breeding crops.

Traditional methods for plant extractions require the use of organic solvents but also phenolic compounds, which lead to contamination and may result in low-quality gDNA. Low-quality gDNA affects the outcome of downstream applications and may contribute significantly to their failure, resulting in the loss of valuable processing time and effort.

The AxyPrep MAG Plant gDNA Extraction Kit is a magnetic beads-based purification system that allows rapid and reliable isolation of high-quality gDNA from a wide variety of plant samples. Up to 96 samples (50 mg fresh tissue per sample or 15 mg of dried tissue per sample) can be processed in less than one hour. The AxyPrep MAG Plant gDNA Extraction Kit efficiently eliminates polysaccharides, phenolic compounds and enzyme inhibitors with no organic extractions. This kit is adaptable for use on major liquid handling workstations for high throughput processing.

Downstream Applications Compatibility

- ▶ PCR
- ▶ Sanger and Next Generation sequencing
- ▶ Fragment Analysis
- ▶ Genotyping and SNP detection
- ▶ Restriction Enzyme clean-up

Product Features

- ▶ Simplified extraction process
- ▶ Non-alcohol-based purification
- ▶ Compatible with genomics downstream applications
- ▶ High-quality, high-yield DNA
- ▶ Manual and automation friendly

Comparison of DNA extracted using Axygen® AxyPrep™ MAG Plant gDNA Kit versus Company P's equivalent kit. Using liquid N₂, canola seeds were ground to fine powder. Twenty milligrams were weighed into a 1.5 mL tube for extraction. Quality was measured with A260/280 (left). Yields was measured with Picogreen (right).

Ordering Information

| Cat. No. | Description | Kit Size/Prep |
|-------------------|---|---------------|
| MAG-PLANT-GDNA-10 | AxyPrep MAG Plant gDNA Extraction Kit, 10 mL | 10 |
| MAG-PLANT-GDNA-S | AxyPrep MAG Plant gDNA Extraction Kit, Small | 96 |
| MAG-PLANT-GDNA-M | AxyPrep MAG Plant gDNA Extraction Kit, Medium | 384 |

Warranty/Disclaimer: Unless otherwise specified, all products are for research use only. Not intended for use in diagnostic or therapeutic procedures. Not for use in humans. Corning Life Sciences makes no claims regarding the performance of these products for clinical or diagnostic applications.

In our continuous efforts to improve efficiencies and develop new tools and technologies for life science researchers, we have scientists working in Corning R&D labs doing what you do every day, across the globe. From collection to analysis, our technical experts understand your challenges and your need for simplified, efficient, low- to high-throughput genomics processes.

A combination of global manufacturing expertise, extensive use of in-house automation, an unsurpassed commitment to product innovation and a thorough understanding of your processes enables Corning to offer a beginning-to-end portfolio of high-quality, reliable consumables and reagents for genomics applications.

For additional Axygen product or distributor information, please e-mail us at CLSCustServ@Corning.com, visit our website at www.corning.com/lifesciences/axygen or call 1.800.492.1110. Outside the United States, call 978.442.2200.
