Pipette Management Simplified
SmartStand Fits Your Workflow

The Rainin SmartStand is an intelligent, easy-to-use pipette asset management system for busy labs and lab managers who want to:
- **Reduce out-of-service/specification-related costs**
- **Proactively manage compliance**
- **Save time on recordkeeping and reporting**

By reading the RFID chip that's in every Rainin XLS and XLS+ brand pipette, SmartStand instantly displays the compliance status for up to four pipettes – manual or electronic. Pick up a pipette and SmartStand's color LCD screen switches to a detailed view of that pipette's service and calibration status.

SmartStand works independently or integrates with EasyDirect™ Pipette Asset Management software to create a laboratory-wide pipette asset management and tracking system. EasyDirect simplifies lab asset management by enabling users to record pipette usage, flag pipettes for service, transfer data between other lab management systems (LIMS) and by recording unique data (such as owner, quick check methods and inventory number) onto each pipette's RFID chip.

Reduce Costs
Don't be caught off guard by pipettes that are out-of-specification or beyond their service dates. SmartStand brings clarity and transparency right to the benchtop.

Manage Compliance
Transform tracking with an automated, highly-customizable system for proactively managing pipette service, calibration and periodic performance checking.

Save Time
SmartStand simplifies and streamlines pipette management. It displays the service data that's stored on every Rainin XLS pipette and integrates with EasyDirect for a more comprehensive asset tracking and reporting system.

SmartStand and Hang-Up in One!
SmartStand turns into a "Smart Hang-Up" with an accessory fastening kit.

Easy-read color screen displays pipette status

Charges up to four E4 pipettes simultaneously

Fast RFID readers scan four pipettes at once

Detachable head mounts to wall or shelf

Built-in Bluetooth and USB-mini port

SmartStand and EasyDirect™
Powerful Asset Management Tools

SmartStand

- Flexible, scalable
- For manual and electronic XLS and XLS+ pipettes
- User defined service/calibration intervals
- QuickCheck reminders for periodic performance verification
- Intuitive graphical interface
- 110/220V, 50-60 Hz
- Connects via Bluetooth* or USB
- Stands alone or use optional kits to mount the head to a shelf or wall

EasyDirect Pipette Asset Management

- Connects up to multiple SmartStands to a PC
- Tracks and manages all brands/models of pipettes
- Reads/writes to RFID chips on Rainin XLS and XLS+ pipettes
- Export to Excel, csv or xml (append, overwrite or delete)
- Automatic export scheduler for autonomous operation
- Schedule service requests
- System requirements:
  Windows 7 (SP1) or higher, 5GB of free memory and 4 GB of RAM
