

5378-10xx SteriPlast sample scoop, spoon, spatula

Bovine spongiform encephalopathy (BSE) / Transmissible Spongiform Encephalopathy (TSE)

We certify that manufacturing the above listed products, we do not use or intentionally add into it any ingredients of animal origin.

Our supplier of the raw material (Polystyrene) confirms that the products do not contain specified risk materials as defined by Regulation (EC) 999/2001/EC and by the EMEA guideline 410/01 rev. 3; additives manufactured by raw materials from animal are certified as BSE/TSE-free by their suppliers.

Our supplier of the masterbatches confirms that the material contains raw materials that might be produced by using substances derived from animal origin. In all these cases, the relevant regulations of the European Community about the avoidance of TSE/BSE contamination have been considered and fulfilled. Declarations of conformity issued by our raw materials suppliers, in respect of the "Guidance on minimizing the risk of transmitting animal spongiform encephalopathy agents via human and veterinary medicinal products (EMA/410/01)" and EC directives, state that raw materials undergo treatments to ensure a complete inactivation of any TSE/BSE agent regardless of the source and type of material.

Further tests are not carried out by us.

The declaration is based on our current state of knowledge and information provided by our supplier at the time that the document was drawn up. The supplier – Bürkle GmbH in Bad Bellingen/Germany – is certified according to the standard DIN EN ISO 9001 by the DQS (German Society for Quality Assurance) since 1995. The number of certificate is 2284-08.
