BDB - With stopcock

1| Endo Glassware offers a complete series of glass desiccators, with or without connection to vacuum pump, to keep samples and reagents free of moisture.
2| Desiccators present flat flange and the lower portion modelled to hold the porcelain disk over the desiccant agent, and are supplied together with the lid and the porcelain disk.
3|These components are also available individually.

Desiccators with stopcock lid

1| Lid with ground joint and vacuum stopcock.
2| These desiccators can support a vacuum pressure of 6 KPa.

Code	Capacity	Ø Outer	Ø Inner	Height
BDB002	2 L	210 mm	150 mm	220 mm
BDB003	4 L	270 mm	200 mm	300 mm
BDB004	7 L	305 mm	250 mm	360 mm
BDB005	14 L	365 mm	300 mm	420 mm

BDD - Without stopcock

Desiccators with knob lid

1| Without connection to vacuum pump.
2| The lid presents a big andel for an easy manipulation.

Code	Capacity	Ø Outer	Ø Inner	Height
BDD001	1 L	136 mm	100 mm	180 mm
BDD002	2 L	210 mm	150 mm	220 mm
BDD003	4 L	270 mm	200 mm	300 mm
BDD004	7 L	305 mm	250 mm	360 mm
BDD005	14 L	365 mm	300 mm	420 mm

BDG - Disks

Porcelain disks for desiccators

1| Nahita brand, glazed on one side.

Code	Diameter	Ø Hole
BDG001	90 mm	10 mm
BDG002	140 mm	10 mm
