Technical Data Sheet

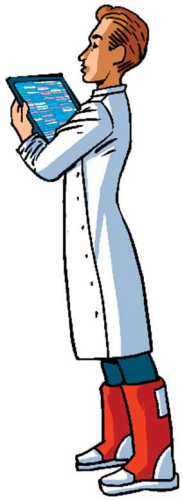

Description

- Double-Sided Folding Blade - Total Flora / Yeasts Moulds

Part number

- 853006B

Pieces by sales : Box of 20 blades

Composition

Medium for Total Flora	g/l
Yeast extract	2.5
Casein tryptic hydrolysate	5.0
Glucose	1,0
TTC	0.065
Agar	15.0
Neutralizing solution	100 ml
Distilled water on glass	qsp 1000 ml
pH 7.0 ± 0.2 to 25°C	

Yeast Mould Medium	g/l
Mycological peptone	5.0
Glucose	10.0
Potassium phosphate	1.0
Magnesium Sulfate	0.5
Bengal pink	0,05
Chroramphenicol	0.1
Agar	15.5
Neutralizing solution	100 ml
Distilled water on glass	qsp 1000 ml
pH 7.2 ± 0.2 to 25°C	

- Storage: From 10 to 20°C until the expiry date indicated on the packaging.
- Use: Control of the disinfection status of surfaces by application.
  Hygienic quality control of a product by immersion.
- Incubation:
  * 30°C or for 24 or 48 hours for 37°Cla Flore Totale.
  * 20°C for 4 to 5 days for Yeast Mould.25°C
