SCHEDA TECNICA PRODOTTO / *TECHNICAL DATA SHEET*

Eutectic plates

Cooling elements for temperature-controlled transport

Specific	Code	BS4008	BS4009	BS4010
	Dimensions	160x110x14 mm	250x140x14 mm	320x240x14 mm
	Weight	200 g	410 g	820 g

Description	Ultra-flat eutectic plates for the transport of biological samples, drugs and blood components		
Features	• Materials	•Slab	Polyethylene
		•Liquid	Mixture of water and salts
		All components are latex free	
	• Plates should be frozen -15°C/-18°C for at least 24 hours before use		

Cleanliness disinfection and sterilization	**•Cleanliness**	Neutral surfactant-based detergents
	•Disinfection	pH neutral disinfectants
	•Sterilization	NOT autoclavable
	ATTENTION	For cleaning and disinfection, absolutely avoid the use of: • Acetone • Solvents • Thinners • Alcohol • Concentrated acid solutions • Concentrated basic solutions • Sodium hypochlorite solutions
Maintenance	Every 300 cycles of use or once a year, inspect the product for integrity. In case of wear, replace the plate.	
Guarantee	• The product is covered by a 24-month warranty from the date of delivery to the customer. • During the warranty period, the free replacement of the product is ensured if the malfunction/defect is attributable to production defects or material anomalies. • Free replacement is not guaranteed in the event that the malfunction/defect is attributable to improper use of the product or failure to comply with the instructions for use.
