Product Data Sheet

# Fine Tip Pastettes®

*Superior Quality*

## Specialist transfer pipettes for small drop work and diagnostic procedures.

With a soft responsive bulb, Fine Tip Pastettes provide a high level of control and dexterity for quick and easy use with exacting procedures.

Frequently referred to in National Standard Methods and NHS SOP's, Fine Tip Pastettes are used in many laboratory and diagnostic procedures as an effective solution for specific liquid handling tasks.

**Ideal for:**

- **Careful separation of supernatant in centrifuge tubes**
- **Plasma separation during blood chemistry analysis**
- **Complete aspiration of media from microwell plates**
- **Immuno-staining on slides and *in-situ* hybridisation**
- **Microbiology for cell staining, reagent handling and aseptic transfers and colony picking**
- **Point of care blood glucose monitoring for drop-wise application to test strips**

### Varied Designs

Fine Tip Pastettes are available in a choice of forms with alternative drop volumes, draw volumes and lengths to suit various tasks; from the Extended Fine Tip at 157mm in length to the Small Bulb Fine Tip at just 36mm long.

### Sterile Packs

Sterile packs are securely sealed and gamma irradiated at 12.5 Kgy to provide Pastettes suitable for aseptic transfers.

Certificates of sterility are available by lot number.

A choice of sterile pack sizes provides cost effective quantity to suit your sterile procedures.

## Are you using genuine Pastettes®?

Often imitated, but never bettered, Alpha Laboratories offer the most comprehensive range of disposable transfer pipettes available to suit all clinical, experimental and routine liquid handling procedures.

Pastettes are manufactured from virgin low-density polyethylene (LDPE), safely providing precise transfer and delivery of liquids, reagents and cell suspensions. Graduated, Non-graduated, Fine Tip and Micro ranges feature designs specific for your applications.

Pastettes are ideally suited to sterile and non-sterile applications. Available in sterile packs of 10's, 20's or single wrapped as well as non-sterile bulk packaging.

Request the Alpha Laboratories' catalogue to see our complete range or request samples to try before you buy.
