# Get + Together

A perfect match: Centrifuge 5920 R + Rotor S-4xUniversal-Large + Eppendorf Consumables

### **A perfect match**

Do you spin both conical tubes and plates? Eppendorf may have the perfect solution for you. Eppendorf offers a comprehensive range of high quality consumables and now introduces the new refrigerated Centrifuge 5920 R, featuring extraordinary high capacity and performance. Its main swing-bucket rotor allows for spinning both plates and tubes in the same bucket.

### **Your benefits:**

- > Cost saving: No need for separate plate buckets
- > Space saving: No need to store different buckets
- > Time saving: No need to exchange buckets
- > Optimal complementarity and performance with Eppendorf Consumables

# The Power of +Together.

Find the perfect match for your application.

## Centrifuge 5920 R + Rotor S-4xUniversal-Large

- > Capacity up to 40 x 50 mL / 96 x 15 mL / 8 x DWP
- > Aerosol-tight QuickLock caps optionally available
- > Powerful state-of-the-art refrigeration system with advanced temperature management to keep your samples safe

## Eppendorf Tubes® + Eppendorf Plates®

- > High g-safe® centrifugation stability enables reliable, safe, and fast centrifugation steps
- > Different purity grades for individual application demands. Monitored and certified quality – lot by lot
- > Highest sample integrity due to avoidance of any slip agents, plasticizers, and biocides

\*The Centrifuge 5920 R is designed for separating liquid substance mixtures with different densities, in particular, for processing and analyzing samples from the human body in *in vitro* diagnostic applications to ensure that the *in vitro* diagnostic device can be used according to its intended purpose. This centrifuge including components is an *in vitro* diagnostic device according to Directive 98/79/EC of the European Parliament and the Council dated October 27, 1998. Eppendorf centrifuges are exclusively intended for indoor use by trained specialists.
