

MICRONIC | SAMPLE STORAGE | CAPS

SCREW CAPS

DO YOU REQUIRE A SECURE CLOSURE FOR LONG-TERM STORAGE AT ULTRA LOW TEMPRATURES OR DO YOU NEED SAFE SEALING DURING THE TRANSPORTATION OF YOUR SAMPLES? IF SO, THEN MICRONIC OFFERS YOU SCREW CAPS FOR THE MICRONIC SCREW CAP TUBES FROM IN A 96-, 48- AND 24-WELL CONFIGURATION.

Micronic offers Screw Caps that are compatible with a variety of Micronic Screw Cap tubes in a volume range of 0.50ml, 0.75ml, 1.10ml, 1.40ml, 2.00ml, 4.00ml and 6.00ml.

The Micronic Screw Cap tubes are available non-coded, alphanumeric coded and 2D coded (Data-Matrix or TraXis). The tubes (including code area) are manufactured of the highest-purity polypropylene. The 2D codes are encrypted with a laser in the polypropylene code area, guaranteeing the highest resistance to solvent attack and ensuring a reliable code reading. The Screw Cap tubes are available with inner V- or U-shape, or with a flat bottom.

The Micronic Screw Caps are available in as many as 12 different colors: Grey, White, Yellow, Orange, Red, Pink, Purple, Blue, Light Blue, Light Green, Green, Black, ideal for cap color coding practices (visual identification).

Micronic Screw Caps feature Silicon "O" rings around their base to allow for the tightest seal possible. The one turn capping ensures an easy and tight sealing for sample storage tubes.

Whether applying single caps directly to the tubes or when used with an automated capping system, Micronic Screw Caps provide for maximum sample integrity for long-term storage.

Available features

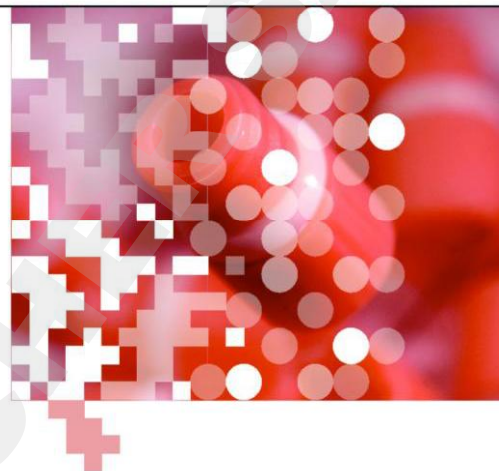

- Sterile, gamma radiated
- Precapped on Micronic Screw Cap tubes
