

Whatman™ Mini-UniPrep Multicompressor

Overview

- Streamlines syringeless filtration by filtering up to eight filter vials simultaneously
- Designed for Cytiva's Mini-UniPrep standard plastic filter vial
- Mini-UniPrep vials can be loaded directly into the autosampler

The newly redesigned Whatman Mini-UniPrep Multicompressor streamlines filtration, saves time and reduces hand stress by enabling the filtration of eight Mini-UniPrep vials at once. The multiprocessor includes one blue 8-position tray. Additional trays are available, giving the added convenience of pre-loading up to eight Mini-UniPrep filter vials.
