HyClone™ Amphotericin B (Fungizone) solution

An antifungal, anti-yeast and anti-mold reagent.

Overview

An antifungal, anti-yeast and anti-mold reagent.

- An antibiotic agent that is active against fungi
- Interferes with the permeability of the cell membrane of sensitive fungi by binding sterols
- Common working concentration is 2.5 µg/mL, and it is cytotoxic at 30 µg/mL

Used as an antifungal, anti-yeast and anti-mold agent.

Product specifications
HyClone™ Amphotericin B (Fungizone), liquid, 50 mL

Catalog code	SV30078.01
Antibiotic Spectrum	Antimycotic, Antifungal
Concentration	250 µg/mL
Format	Liquid
Shelf life	18 months
Size	0.2 µm sterile filtered
Storage	Store frozen
