

SUBJECT : Stop testing the biological performance by cell culture of the references below :

S0500 : Chicken Serum

S050G : Chicken Serum, gamma irradiated

S050H : Chicken Serum, heat inactivated

1- INFORMATION ON PRODUCT CONCERNED BY THE NOTIFICATION :

Catalogue Number : **S0500, S050G and S050H**

Batch Number : from the batch S14862S0500

Production date : /

Request Number : /

2- DESCRIPTION OF THE NOTIFICATION :

Description :

Chicken serum is usually used for cell culture by our customers after testing this serum on their cells line to ensure the growth promoting of this serum compared to Fetal Bovine Serum.

The biological performance tested with cell lines L929, SP2/O-Ag14 and HeLa was not a selection criterion for our customers. So, decided to stop testing the biological performance of this serum.

However, these cell growth tests are available and can be performed on request.

Documents linked : Technical Data Sheet (TDS) of the S0500, S050G and S050H

3- PREVENTIVE / CORRECTIVE ACTION TO REALISE :

Description : NA
