Applications 101 : Mastering Research Techniques

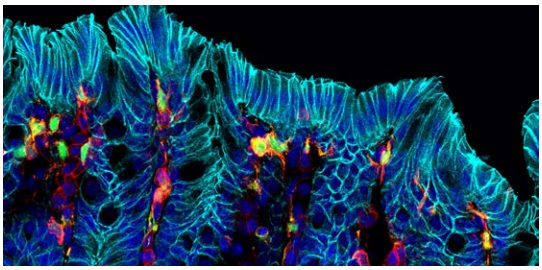

Build a stronger foundation for your research

Applications 101 is a live, expert-led webinar series for graduate students, postdocs, and early-career researchers. Across four practical sessions, CST specialists cover essential techniques including ELISA, immunohistochemistry (IHC), immunofluorescence (IF), flow cytometry, and western blotting.

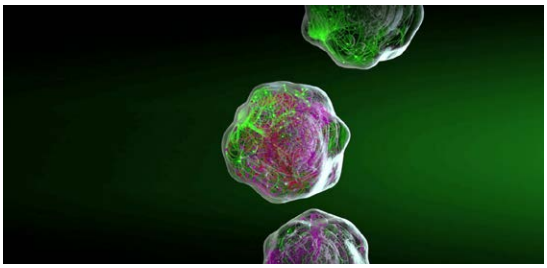

Part 1 | Pair Up: Comprehensive ELISA Kits, Carrier-Free Antibodies, and Matched Antibody Pairs

October 1, 2026 | 8:00 AM & 4:00 PM (CEST)

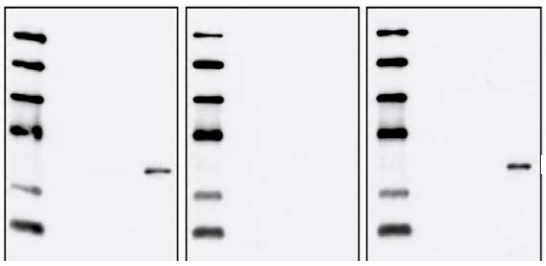

Part 2 | See the Signal: Mastering Immunohistochemistry (IHC) & Immunofluorescence (IF)

October 29, 2026 | 8:00 AM & 4:00 PM (CET)

Part 3 | Go with the Flow: Mastering Intracellular & Phospho-Flow Cytometry

December 3, 2026 | 8:00 AM & 4:00 PM (CET)

Part 4 | Band Together: Clean and Reproducible Western Blots

January 21, 2027 | 8:00 AM & 4:00 PM (CET)

Scan the QR and sign up for the webinar series!

What you will learn:

- Understand the core principles and mechanics behind each methodology.
- Get step-by-step guidance on sample preparation, antibody selection, and experimental design.
- Learn how to eliminate background noise, prevent non-specific binding, and generate publication-quality data.
